

user interface designer

FRESH TILLED SOIL, JANUARY 2010 – PRESENT // WALTHAM, MA

- Execute the visual design of web and mobile applications and marketing websites, working closely with the Creative Director, Project Managers, and UI team
- Provide user experience strategy through wireframing, sitemapping and thoroughly auditing the information architecture of projects
- Engage with clients as the lead designer from the discovery phase through the launch of the project
- Build rapid prototypes to evaluate and confirm user flow and site structure
- Advance Fresh Tilled Soil's industry leadership by writing blog posts, attending UI/UX events, and engaging with the design community through social media

freelance graphic and web design

MAY 2009 – PRESENT // WALTHAM, MA

- Deliver custom designed and fully developed websites using industry-standard best practices and technologies such as jQuery and WordPress CMS.
- Lead clients through brand discovery and identity design
- Manage the entire life cycle of projects through visual design, development and launch

residential counselor

JUSTICE RESOURCE INSTITUTE, FEBRUARY 2008 – MAY 2009 // CONCORD, MA

- Built positive and healthy relationships with mentally and behaviorally challenged teenage girls, coaching them in appropriate behaviors, self-care routines, and coping skills
- Developed individualized treatment plans for students, combining input from the student, her family, and clinical team
- Supported the students in the classroom, tutoring one-on-one in all subjects and helping them work through periods of high anxiety, stress, frustration, and anger
- Maintained a safe environment by resolving conflicts and intervening when students were in crisis

server & bartender

THE GRAPE AT CAMERON VILLAGE, NOVEMBER 2006 – JANUARY 2008 // RALEIGH, NC

- Provided excellent customer service in the bar and dining room
- Managed monetary transactions and cash register, balanced cash drawer nightly
- Implemented higher recycling standards for the restaurant
- Trained new waitstaff and bartenders on the menu, use of POS software, and customer interaction
